Cyberstalking

- Cyberstalking is a more specific form of cyberbullying, and like cyberbullying, is much enabled by the anonymity possible via the Internet.
- It is the use of the Internet and other technology to harass someone, although some cyberstalking can be secret for a time.
- The Internet makes it easy for a person to hide his or her identity, make a fake identity, or pose as someone else – as a false friend perhaps – making it simple to spy on a person's activities

Judgment

- ✦ Do judges only judge or give judgment ?
- ✦ Everyone of us do make judgment day in and day out.
- ✦ Take a simple example of driving a car behind a truck and wanting to overtake it. So many things are to consider and then take a judgment.
- ✦ We make some judgments bristly because we become used to it.
- ✦ Same is with judges who are used to dealing with evidence and

The Elements of Judgment

- A Judge is performing a public act.
- A judgment must begin with clear recital of facts of the case, cause of action and the manner in which the case has been brought before the court.
- The soul of the judgment is the reasons for
